

DECO ANTI-BACTERIAL COMPACT

3mm Interior Grade Compact Laminates

Decotone Interior Grade Anti-Bacterial Compact is manufactured in a thickness of 3mm (1/8") up to 25mm (1"). This surface can be used for a variety of applications including: partitions, walls, doors, tops and cabinets. It is produced in a wide range of solid colors, woodgrains, patterns and pearlescent designs. Deco Anti-Bacterial Compact Laminate is produced using "nano-technology", which combined with its high-density composition, maintains a continuous antimicrobial effect, has a high resistance to impact, scratching, fire, water and humidity. Decotone Surfaces Interior Grade Anti-Bacterial Compact can be used in hospitals, clinics, schools, restaurants and locker rooms. Due to its anti-bacterial, non-porous composition it is resistant to bacteria and easy to clean providing protection against bacteria, molds, yeast and fungus. Great for use in temporary or permanent fixtures.

NANO-TECHNOLOGY - PROVIDING AN INVISIBLE SHIELD FOR OUR EVOLVING HABITAT

1

APPLICATIONS:

Hospitals, Medical Centers, Government Buildings, Public Bathrooms, Day Care Centers, Kitchens, Schools, Universities, Training Centers, Restaurants, Food Services, Gyms, Offices and more.

2

FEATURES:

High pressure laminate with anti-bacterial and anti-fungal protection, developed using nano-technology that reduces up to 99.9% of germs on the surface. It maintains a continuous residual anti-microbial effect, retaining the protected area regardless of the number of times it is cleaned. Perfect for high traffic areas where aseptic hygiene is a requirement in order to preserve pathogen free surfaces **24 hours a day. Therefore, no need to re-coat/treat on a regular basis as per other anti-bacterial solutions.**

Available as 4x8 or 4x10 sheets with many colors to choose from.
